

MARATHON NEWS

DAILY DIARY UPDATE NO. 2 - April 6th

Greetings from a very wet Marathon today!

We have had a great time of prayer this morning in preparation for our gathering together. There were some significant prophetic words given:

- ◆ Ray Lowe sensed that new revelations and understandings of all three persons of the Trinity would be given to us as a movement in the coming week in our times of worship together, and that these revelations would trigger further mission
- ◆ Rodney Haggart saw two different views from the windows where he was standing; one showed sea and coastline and one just the open sea. He felt that God is calling us in the next decade to venture out more into the open sea, to nations beyond the horizon that we cannot see yet - to the regions beyond. He said that we need to invest in a bigger boat! Hear the full prophetic word by following this Vimeo link: <https://vimeo.com/328816557>

- ◆ Steve Oliver confirmed the above by sharing a provocation given by Dave Devenish recently to the London Hub gathering: Live up to your Regions Beyond name.

People are arriving all the time - we will keep you up to date with the latest news.
