

MARATHON NEWS

We're on our way....

DAILY DIARY UPDATE NO. 5 - April 9th

After greeting friends old and new from across the nations, we gathered yesterday evening for our opening session. Craig led us in worship and Steve encouraged us to make the most of this special opportunity by being open to the Spirit's guidance, having a willingness to think differently and to learn from others. He also urged us to have an expectancy for the supernatural and to have a heart to return, delegate and release others for maximum impact.

This morning after breakfast we gathered for prayer. Trevor and Rachel led us as we sought God together asking him to impact those who were unable to join us on this occasion. There were some encouraging prophetic words; one about being in an atmosphere with no artificial light - "the heavens declare the glory of God" (see Ps 19) - and another speaking of a new harmony as we are all tuned to the same note of the Holy Spirit.

God is certainly with us and speaking to us!
