Knowing the Father Heart of God

DAILY DIARY UPDATE NO. 7 - April 11th

Yesterday evening Marc Dupont spoke to us powerfully about God renewing us in readiness for the new era by giving us fresh revelations of His Father heart for us as His precious children. He encouraged us to use the next few months to take a fresh look and gain a deeper understanding of this as we seek God as individuals. He said “Step away from the busyness and seek God for a closer relationship with Him and a deeper understanding of the Father’s love. This is the fuel of kingdom life”.

His message was followed by a time of powerful prayer and ministry.

This morning we gathered again for prayer and worship.

Mike Irving led our meeting together and encouraged us all to pray for Steve and Heather, then Steve introduced his global team and led us in prayer for those involved in apostolic mission across the nations.

This evening we gather to worship God and will be hearing from Jaz Potter. We will also be taking a special offering for the work of RB.
